

## Household Hazardous Waste Services in Monterey County

In an effort to pool the education section together in one local we have outlined the household hazardous waste programs by other agencies listed below and found in Minimum Measure 6 of this document.

All of the member entities have existing programs provided by other agencies and private companies that educate and provide services for used motor oil and used oil filters. Each community is provided with curbside oil recycling services for residences. All auto part stores provide containers for used motor oil and filter bags. The local waste companies, Waste Management, Inc. and Monterey Disposal provide education information in their newsletters quarterly regarding the topic. In addition the Monterey Regional Waste Management District provides information by mail and at most events in the community including the local fairs (2) and major festivals. Public education audiences include schools, HOAs, businesses, and multi-family residences. Effectiveness for this effort can be tabulated by the collection numbers from year to year.

Below is a more complete listing of the services and publications.

<b>Monterey Disposal</b>	“Recycling Times”	Quarterly	Web Site <a href="http://www.montereydisposal.com">www.montereydisposal.com</a>	Public education meetings
